

# Introducing the Lubchem FF100 Mini!

Lubchem, Inc. would like to introduce a smaller alternative to our very popular FF100 Complete!

The FF100 Mini is lighter, more compact and easier to use!

It has better mobility for smaller job sites while still providing a lot of volume for a pump its size (delivering 60 ounces of grease per minute)!

Best of all it's less than 1/2 the cost of FF100 Complete!

Give us a call today to get a quote for your new FF100 Mini today!

## Air Operated Lubrication Equipment – Lubchem FF100

The Lubchem Force Flow 100 Mini grease pump is a reliable, heavy duty air operated pump. The Force Flow 100 Mini pump is equipped with 100:1 ratio air motor that is capable of 10,000 psi discharge pressure. Discharge pressure may be adjusted by regulating the inlet air pressure to the pump through the air inlet regulator. The Force Flow 100 Mini pump is equipped with twin cylinders that provide continuous contact between the follower plate and the sealant providing a continuous prime to the pump. The positive pressure applied by the pressure priming system prevents pump cavitation and makes it possible to pump highly viscous sealants at low temperatures.

- 100:1 Air Motor & Pump Tube
- For use with 10 lb. pails
- Discharge Pressure 10,000 psi
- Handle (not pictured)
- 10' Discharge Hose
- Control Valve
- Gauge Tee
- 15k Gauge
- Whip Hose
- Straight Swivel
- Giant Button Head Coupler
- Weight: 48 lbs.
- Dims: 22" long, 15" wide, 40" tall with handle (not shown)
