Nano Pro MT vs. The Million Dollar Bolt

The \$1,000,000 Bolt: Sometimes one seized bolt can shut everything down.

When a Wellhead Bolt Seizes

- Bolt won't break free
- Assembly must be cut apart
- Threads must be re-machined
- Equipment goes offline

What One Bolt Can Cost Your Company

- Crew delays - \$20,000 +
- Replacement hardware \$10K-\$50K

The Real Costs can be much higher

- Downtime – depending on the location it can be \$10K – \$1M per day
- Lost production can be tens of thousands per hour

NANO
PRO MT
 MILITARY TESTED MILITARY TOUGH

The Solution: Nano Pro MT Penetrating Lubricant

Breaks seized bolts free without cutting or thread damage

- Faster maintenance
- Protects threads
- Prevents catastrophic downtime

Bottom Line Prevent the Million-Dollar Bolt

**Use Nano Pro MT Penetrating Lubricant.
 Avoid your team being the reason for the
 shutdown.**

Loosen the bolt. Stay in the black.

NDT11P6 Aerosol Penetrating & Multi-Use Lubricant

- Fastest working penetrant oil & multi-use lubricant on the market
 - Foaming Action: Clings exactly where you spray, no running, no dripping, no mess.
 - Performs hard without harsh, noxious odors. • Faster, Deeper Penetration
 - Rust & Corrosion Defense: Nano-level shield that keeps parts protected longer.
- Aerosol Penetrating / Multi-Use Lubricant (Case of 6) (11 oz) (311 g) Aerosol Spray Cans**

**50 State Compliant Formulas:
 Contains No Prop 65 Chemicals and still outperforms everyone else.**
