

No Harsh Chemicals

Ready to Use

Eliminates odors

No Personal Protective
Equipment Needed

What is Envirocleanse-A?

Envirocleanse-A is a broad-spectrum, liquid disinfectant that is gentle enough to use around kids and pets, and kills 99.9% of germs**, bacteria*, and viruses*** on hard, non-porous surfaces.

Envirocleanse-A contains the active ingredient of hypochlorous acid (HOCl). Produced from saline, the HOCl acts as a disinfectant and is the same chemical produced in our own white blood cells to attack pathogens and fight infections.
