WSB-BP WIRELINE SET BRIDGE PLUGS

Model WSB-BP Wireline Set Bridge Plugs are compact, small OD and designed for easy drill out. These bridge plugs will set securely in all but the very highest tensile casing. A ratchet lock ring stores the setting force in the plug. The one piece packing element and metal back up rings combine for a superior seal. The case hardened, one piece slips virtually eliminate premature setting, yet can be easily drilled out. They are available for 2-3/8" through 20" casing.

FEATURES

- ▶ Can be set directly with Baker style wireline setting tools.
- ▶ Easy for mill out.
- ▶ Ratchet lock rings secure dynamic setting force.
- ▶ One piece packing element and rocker action metal back up rings combine for a superior seal.
- ▶ Shear studs are Baker style and connect directly to the Baker Adjuster Sub.
- ▶ These bridge plugs can be run directly on Baker Setting Sleeves and Adjuster Subs.
- ▶ Crossovers are not required.

One company at the center of the energy revolution is uniquely equipped with the know-how and ingenuity to make possibilities happen—[SERVA group.com](http://SERVAgroup.com)
